CEO Capgemini Engineering
Paris et périphérie

Résumé

CEO of the Engineering and R&D global business of Capgemini, since January 2021.

We aim to accelerate industrial and tech companies' journey towards Intelligent Industry by engineering a sustainable future. We design and build smarter products, operations, and services at scale to help our clients differentiate from their competitors by leveraging experts, labs, tools and frameworks.

3 key facts about us:

- 60k+ talents in 30+ countries benefiting from a deep industry expertise with a strong system culture.
- Digital & Software and Sustainability growth platforms supported by global delivery locations.
- We are the strategic transformation partner of most of the world innovation leaders, and are recognized as the global leader for ER&D services by analysts.

Expérience

Capgemini

Capgemini Group Executive Board Member - CEO Capgemini Engineering

janvier 2021 - Present (4 ans)

Ville de Paris, Île-de-France, France

Leading the new Engineering and R&D global business line combining Altran and Capgemini engineering activities, following the acquisition of Altran by Capgemini in 2020. We bring together highly skilled experts to help our clients grow and seize business transformation opportunities at the continuous speed of today's markets.
